HALF DAY BIRDING IN ANGKOR WAT

Half day of action packed birding and temples

See the iconic temples of Angkor in a new way with our official Angkor Temple Guides who are also fully-trained expert birding guides. For a relaxed day of viewing the remote and less-visited temples in the countryside around Siem Reap with the chance of seeing some high-quality rare birds why not join us for a trip into Angkorian culture?

Day 1: Angkor Wat (Morning Start- 04:45, Afternoon Start- 13:30)

"We booked a half-day trip to Angkor Park. I am disabled and when out and about use a scooter or wheelchair... We had a brilliant time walking through the woods just outside the Angkor Wat wall.

Unlike the hurly-burly of visiting the temple, it was quiet, with no one else around and our guide Sophear, was brilliant at finding and identifying the birds...

It was magical being in the woods walking along the boundary wall... Highly recommended!"
